

CLIENT FEEDBACK

EVOKE

"We have been consistently impressed by Evoke's expertise and professionalism in providing highways advice, supporting public events, and preparing Transport Statements and Travel Plans as part of outline planning applications for several of our projects. Evoke's support at public events has been particularly noteworthy, demonstrating a clear understanding of stakeholder concerns and effectively addressing them with well-informed, practical solutions. Their preparation of Transport Statements and Travel Plans has been thorough and tailored to meet the specific requirements of each project. The team is responsive, proactive, and great to work with. Their high-quality advice has been key to the progress of our developments, and we highly recommend their services".
