

EVOKE'S

WINTER HIGHLIGHTS

Evoke spread the festive cheer by wearing Christmas jumpers to raise money for Save the Children, alongside dropping off our annual Christmas donation to Launchpad, a charity helping the homeless in Reading. We celebrated as a team heading into London for a spot of virtual clay target shooting at Clays, food at Cinnamon kitchen and ending with David's annual quiz!

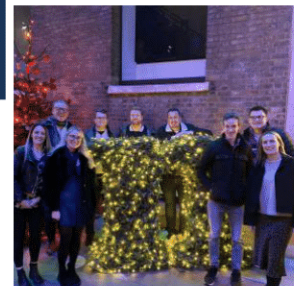

St. James Mill

We were delighted to see St. James' Mill planning application submitted in Norwich, transforming the iconic building into an 88-bedroom luxury hotel, complete with stunning views across the city, as well as a restaurant and bar.

Christmas Jumper Day

Team Outing

Another Planning win, this time in Yeovil. Somerset Council has granted permission for the redevelopment of the former Milk & More site in Yeovil. This project will create circa 14,000 sqft of premium industrial warehouse space, spread across three units on the Lynx Trading Estate. We look forward to commencing construction early this year.

Yeovil Planning Win

We gave a warm welcome to Nathan Reed who joins us as a Consultant in our Birmingham office. We also welcomed back Lucy, returning to our Reading office after her maternity leave.

Welcome!
